

**Algorithms in Genome Research**

**Winter 2012/2013**

**Exercises**

**Number 9, Discussion: 21. December 2012, 9:15 am**

In the last exercise class before the christmas break, we will have a *hands-on assembly exercise* on December, 21st, starting at **9:15 am**. Feel free to bring coffee and cookies and make yourself familiar again with the overlap-layout-consensus assembly workflow (read matching, contig construction, scaffolding by paired-end reads, etc.)...
