

Order- and orientation-independent, duplications allowed

common intervals: intervals with identical character set

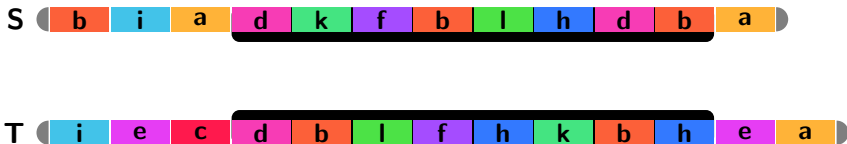

[Heber and Stoye, 2001,
Heber et al., 2011]

[Wolfe and Shields, 1997,
Tamames et al., 2001]

[Schmidt and Stoye, 2004,
He and Goldwasser, 2005,
Ling et al., 2009]

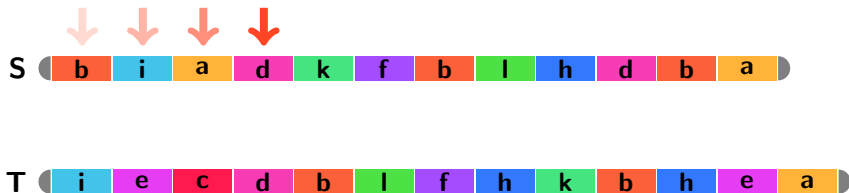

Didier's Algorithm [Didier et al., 2007]

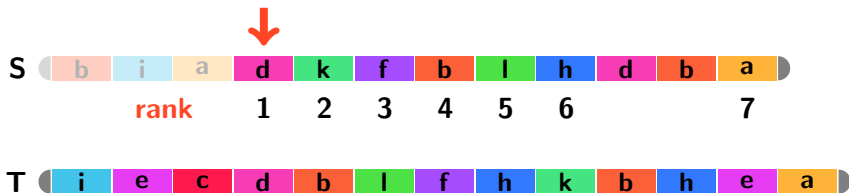

maximal: no character left or right of interval that is already contained

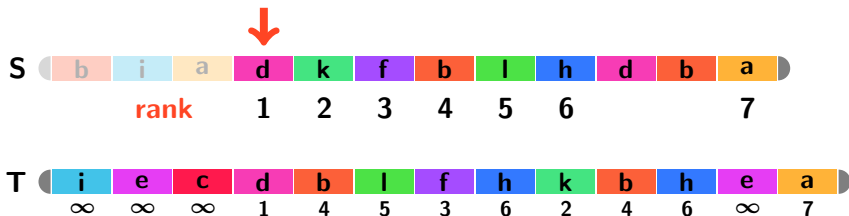

Didier's Algorithm [Didier et al., 2007]

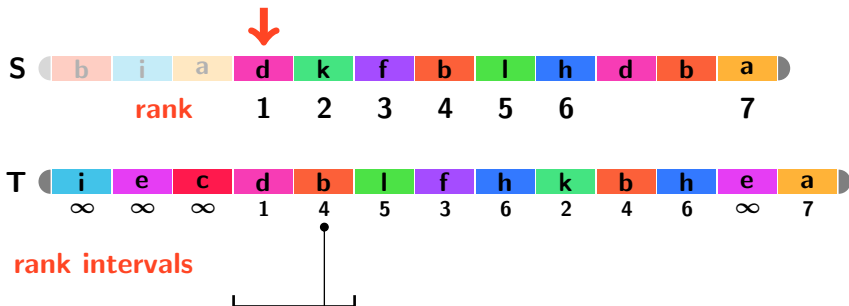

Didier's Algorithm [Didier et al., 2007]

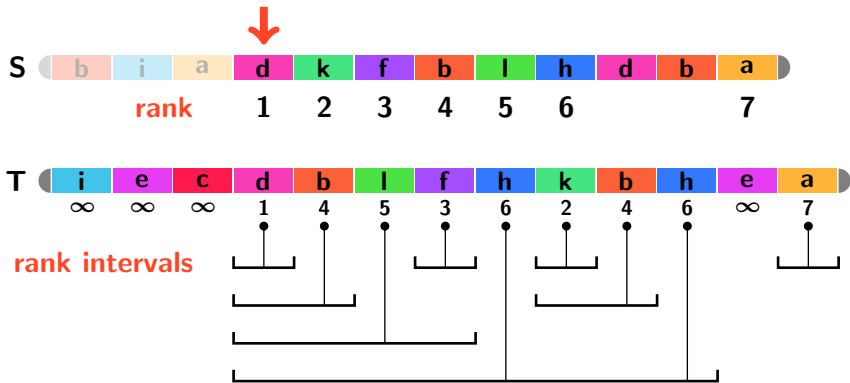

Didier's Algorithm [Didier et al., 2007]
